

Table A – Results of Internal Review Committee

Date of Report: June 20,2005

Water Body Under Evaluation:

Identification #: 0447
Name: East Fork Big Creek (C)
Length of Segment: 19.0 miles
County (ies): Harrison

Use Attainability Analysis Study:

Identification #: 0098
Submitter: DNR staff - Richard Duchrow
Date Received: June 23, 2005
Use Evaluated: Whole Body Contact Recreation (WBCR)

UAA Completeness Check:

All Required Information Included?	<input checked="" type="checkbox"/> Yes	<input type="checkbox"/> No
Correct Forms Used?	<input checked="" type="checkbox"/> Yes	<input type="checkbox"/> No
Forms Signed and Dated?	<input checked="" type="checkbox"/> Yes	<input type="checkbox"/> No
Comments:		

UAA Criteria Evaluated:

- ☐ 1-Natural Pollutant Sources.
- ☒ 2-Natural, Ephemeral, Intermittent or Low-Flow Condition.
- ☐ 3-Non-Remedial, Human Caused Condition.
- ☐ 4-Hydrologic Modifications.
- ☐ 5-Natural Physical Features.
- ☐ 6-Substantial, Widespread Social and Economic Impact.

Use Determination & Recommendation:

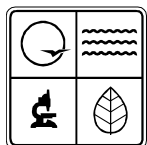

Has the use existed since November 28, 1975? ☒ Yes ☐ No ☐ Unknown
Comments: Local landowner said he swam as a boy and locals swim now.

Is the evaluated use attainable? ☒ Yes ☐ No

Comments: The UAA was conducted in June, 2005 and no WBCR was observed. The stream met the maximum depth criterion in 4 out of 9 sites and the average depth criterion in 2 out of 9 sites evaluated. An interview revealed that the stream was used for swimming. Because the stream is used for WBCR (as well as meets the depth criterion), the committee recommends retaining the WBCR designation.

Committee Recommendation: ☒ Retain Use ☐ Modify Use ☐ Remove Use ☐ Inconclusive

Committee Members: Stacia Bax, Ann Crawford, Donna Menown
